

WE ARE GOING THROUGH A PHASE

Updated December 15, 2020

To monitor and ease into a safe campus environment for all students and staff, student return will take place in two phases.

01

Phase 1 involves:

- Universal masking and temperature taking for all students and staff.
- Quarantine to campus home group for the first three weeks for 2 through 8th grades. Remote learning in the homes.

Should there be a suspected COVID-19-positive individual in a campus community, the community returns to Phase 1.

When a test is negative, the campus community returns to Phase 2.

When a test is positive, the community will isolate following updated CDC 10-day guidelines.

02

Phase 2 involves:

- Universal masking and temperature taking for all staff and students.
- Temperature taking for all students.
- Community conscious environment on campus. (See separate handout.)

If you have questions or concerns, please contact your child's Family Service Counselor.
