

# SHOULD YOUR CHILD DEVELOP SYMPTOMS

New August 1, 2021

These measures pertain to all St. Joseph's Indian School students in grades 1 to 12. If you have questions or concerns, please contact your child's Family Service Counselor.

## Limbo Room

- If a student is symptomatic, they will remain in their room which will be turned into a limbo room (curtaining and full PPE) for the duration of the student's isolation.
- Roommates will be removed to different rooms.

## Quarantine

- Vaccinated students will not need to quarantine.
- Unvaccinated students will quarantine per CDC Guidelines.
- We will review plans regularly and adjust accordingly based on campus-spread, community-spread, CDC Guidelines and recommendations of the South Dakota Department of Health.

## Isolation

Isolated students will remain in their homes. There, they will be cared for following CDC Guidelines.

- All staff working with COVID-19-positive students will maintain PPE standards regardless of vaccination status.
- Surfaces will be disinfected after use for students who do not have a separate bathroom available.
